

Welcome to Marp

Creating Presentations with Markdown

What is Marp?

- Markdown Presentation Ecosystem
- Convert Markdown to beautiful slides
- Supports PDF, PPTX, and HTML output
- Simple syntax, powerful results

Key Features

- 1. Easy to write** - Just use Markdown
- 2. Flexible themes** - Built-in and custom
- 3. Export options** - PDF, PPTX, HTML
- 4. Live preview** - Watch mode for instant feedback

Code Examples

```
def greet(name):  
    return f"Hello, {name}!"  
  
print(greet("Marp"))
```

Simple and readable code blocks!

Images

Easy image sizing and positioning

Custom Backgrounds

You can customize each slide!

Two Column Layout

Left Side

- Point 1
- Point 2
- Point 3

Right Side

- Point A
- Point B
